Jacques-Louis David (August 30, 1748 – December 29, 1825) was a highly influential French painter in the Neoclassical style. In the 1780s his cerebral brand of history painting marked a change in taste away from Rococo frivolity towards a classical austerity and severity, chiming with the moral climate of the final years of the ancien régime.

Serofina Thin

The name "čeština", Czech, is derived from a Slavic tribe of Czechs ("Čech", pl. "Češi") that inhabited Central Bohemia and united neighbouring Slavic tribes under the reign of the Přemyslid dynasty ("Přemyslovci"). The etymology According to a legend, it is derived from the Forefather Čech, who brought the tribe of Czechs into its land. It may be though derived from the word root čel- (with l changed to ch) that can be found in the word čeled, family". Another possibility is that Čech is derived from the word česat/čechat meaning "comb" but also "beat". Then Čech would be "warrior".

Additional Features (available in all weights)

Overview

Serofina is an adaptable and fluid connected script with plenty of alternate flourish options. From clean and flowing to cute and frilly, Serofina can do it. The Serofina family comes with four weights, including a unique hairline, which makes it a versatile investment for a wide range of design possibilities.

All weights include the OpenType programming to automatically and seamlessly swap out the default characters for 45 alternate forms and 18 auto-replacing ligatures. These alternates can make the face appear to be more simplified, restrained or frilly. Serofina also includes seven ornaments and old-style numbers. Check out the sample images to see these features in action.

Serofina is a highly versatile script family and its range of weights make it perfect for whenever you need an expressive and original typeface.
