ABOUT

Javiera is a geometric sans-serif typeface with humanist attributes. One of its main features is its small x-height, which makes ascenders and descenders look longer. The contrast gives the font a more stylised look, typical of humanist fonts.

Curves and rounded terminals make Javiera a smooth, friendly and versatile typeface, well-suited for branding, magazines and publishing projects. User can take more advantage of the versatility of the font by enabling alternative characters included in the set.

Javiera comes in 6 styles—from Thin to Black—plus matching italics, giving a total of 12 fonts. The font's extreme weights are perfect for display use. Javiera family contains a set of more than 400 characters and supports over 200 different languages.

No se trata de buscar explicación a la airada levantisca, todos a una, contra la alcaldesa madrileña. No la tiene, desengáñense. Quizá es el signo de los tiempos. Pero, de alguna manera, para los que confunden obstinadamente sus privilegios con la tradición, ya empezó mal. No era tanto que atacara una prebenda, que lo hizo como que discutiera una íntima condición de lo que somos. Todos. Se barruntaba en el ambiente.
