new.myfonts.com/foundry/Typesenses www.flickr.com/photos/typesenses www.facebook.com/typesenses After the success of Aphrodite Slim (One of MyFonts' best fonts of 2009, which was co-designed with Maximiliano Sproviero) Typesenses presents Parfumerie Script, designed by Sabrina Lopez. With more than 2500 glyphs, Parfumerie is unique amongst the others in its style because it is based on the author's calligraphy. One of its variables is a Decorative option which combines Copperplate Calligraphy with an ornamental form native of Buenos Aires (where Sabrina lives), the "Filete Porteño", which makes it look original amongst the other fonts. Sabrina has exclusively designed this font for two years, with an obsessive adjustment, in order to provide the world with one of the best scripts ever made. With the idea of "Endless way to write a word", lots of glyphs were Open-type programmed so that users can dive into many alternates and ligatures according to their language.

Parfumerie, as its name reflects, is attractive like a fragrance, delicate, elegant, sophisticated, feminine, sensual, glamorous, ornamental and decorative. It works perfect in the world of perfumes, make up, fashion, weddings, greeting cards, wines, chocolates, romantic novels, magazines, books... It is also versatile enough to be used in any kind of work because the user can choose between a wide range of possibilities:
