About Felicità

Felicità is based on the design of my »Ellida« font-family.

It was designed with »happiness« in mind therefore I used extremely high contrast between the down- and upstrokes, this gives the fonts a lively, happy appearance.

I designed two different basic fonts, that can be mixed or used straight (this is number two).

Then I designed two different sets of Initials (Initials), middle- and end-swings and added a set of embellishment & swings and flowers .

Since not everybody uses Open-Type-savvy software I designed single fonts to be mixed.

Ellida is suited very well to design short captions & for all kinds of invitations, but as you can see here it can used for longer copy as well just give it enough line spacing.
